Feature Papers in Origins of Life

Message from the Guest Editors

“Feature Papers in Origins of Life” is a Life Special Issue encompassing a broad range of topics in origins of life, especially (but not limited to) research led by early career researchers. This Special Issue thus aims to publish original research on all aspects of origins of life, hoping to present cutting-edge topics regarding the origins of life and provide a glimpse towards the future topics of interest in this field of research. Thus, all researchers are invited to contribute submissions focused on, but not limited to, the following necessary and emergent research topics in origins of life and related areas:

- Astrochemistry;
- Astrobiology;
- Planetary science;
- Geology, geochemistry and geobiology;
- Prebiotic chemistry;
- Chemical evolution;
- Protocells;
- Synthetic biology;
- Complex systems.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
