

## Special Issue

# Health and Leptin implications

### Message from the Guest Editors

Since its discovery in 1994 by Friedman, the adipokine leptin has received much attention from neuroendocrinologists, on the basis of its effect on feeding behaviour and energy metabolism regulation. More recently, leptin has been shown to be involved in many other brain functions, including memory and cognition. Leptin and leptin receptors constitute an important modulatory system in brain areas such as the hypothalamus, hippocampus and cortex. We are currently assembling a Special Issue focused on the role of leptin in brain metabolism and neurotransmission, as well as in the development of neurodegenerative diseases. This Special Issue is now open for submissions, which may be either original research articles or reviews. Please feel free to involve more junior staff. Prospective authors should first send a short abstract or tentative title to the Editorial Office. If the editors deem the topic to be appropriate for inclusion in the Special Issue, submission of a full manuscript will be encouraged.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
