Effects of Single or Multiple Lifestyle Behaviors on Human Health and Disease-Related Outcomes

Message from the Guest Editor

For this Research Topic, we will explore the impact of single/multiple lifestyle behaviors on human health and disease. Complex research methods and approaches are needed to shed light on the complex effects of lifestyle behaviors on human health and disease, especially when behaviors interact. Original research and reviews, specifically critical or integrative ones, as well as systematic reviews and meta-analyses, are particularly welcome.

Potential contributions topics include (but are not limited to):

- Epidemiology of lifestyle behaviors;
- Infodemiology and infoveillance;
- Digital behaviors;
- Effects of diet on health- and disease-related outcomes;
- Effects of physical activity on health- and disease-related outcomes;
- Dose-response relationship;
- Neurobehavioral markers of lifestyle behaviors;
- Neurobehavioral medicine.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
