Orthopaedic Trauma and Reconstruction

Message from the Guest Editors

The present Special Issue focuses on orthopaedic trauma and reconstruction. We aim to collect studies (original research, reviews, case reports) of high quality relating to orthopaedic trauma as well as joint replacement. Our purpose is to provide an issue which will cover most of the areas of orthopaedic trauma and joint replacement, treatment and complications and facilitate the exchange of knowledge among the scientific community regarding this topic.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
