

Special Issue

Exercise Discussion in the Cardiovascular Field

Message from the Guest Editor

We are organizing a Special Issue of *Life*, with the aim of collating international, peer-reviewed and open access scientific studies related to fundamental themes in life sciences, from basic to applied research. For detailed information on the journal, please refer to <https://www.mdpi.com/journal/life/>. Exercise has been known to alleviate most cardiovascular risk factors and improve cardiovascular health, especially for those with chronic diseases and the aging population. According to the ACSM recommendations, moderate- or vigorous-intensity aerobic exercise, as well as physical activities that maintain or increase muscular strength and endurance, are suggested for people of all ages and special populations. Exploration of the influences from various types or strategies of exercise on cardiovascular health should be discussed for improving the overall health care. This Special Issue is open to any subject area related to the influence of exercise in the cardiovascular field. The listed keywords suggest just a few of the many possibilities.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
