

## Special Issue

# Recent Advances in Microalgal Biology and Biotechnology

### Message from the Guest Editor

Over the last several decades, cultivation of microalgae has evolved into a globally established, economically important branch of biotechnology. Microalgal biotechnology and its derived technologies are now considered among the most promising responses to global challenges. They are at the foundation of CO<sub>2</sub> biomitigation, sustainable usage of nutrients like nitrogen and phosphorus, providing green alternatives for fossil fuels and raw materials for bulk chemistry. This Special Issue is intended to integrate the current progress in overcoming the current barriers for improving the efficiency and practical implementation of microalgal biotechnologies. Submissions on the breakthroughs in basic science with a potential to solve hot problems in microalgal biotechnology are welcome as well as reports on their successful implementation. Preference will be given to contributions deepening the mechanistic insights into the key determinants of microalgal productivity and stress resilience. We would be happy to consider your minireviews summarizing the recent progress in the field after prior negotiation of the topic and structure with the editor of the Special Issue.

### Guest Editor

Prof. Dr. Alexei Solovchenko

Bioengineering Department, Faculty of Biology, M.V. Lomonosov Moscow State University, 1/12 Leninskie Gori, Moscow GSP-1 119234, Russia

### Deadline for manuscript submissions

closed (30 April 2020)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

---

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
