Imaging in Neurosurgery: State of the Art

Message from the Guest Editors

This Special Issue aims to present the latest advances in the cross-disciplinary field of neuroimaging in neurosurgery, to build a focused update from different points of view. We welcome contributions from all specialists involved in the diagnosis and treatment of neurosurgical diseases, from basic neurological sciences (neuroanatomy, neurobiology) to medical clinical specialties (neurology, neurosurgery, neuroradiology, neurophysiology).

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
