Current Research in Inflammatory Response to Injury and Diseases

Message from the Guest Editors

Inflammation is a major problem of the host response against external pathogen invasion or internal pathologic progression. Immune responses are complex and essential, affecting the organ function and survival of an individual. Therefore, we invite researchers and clinicians to submit original articles, as well as review articles, associated with inflammation. We are particularly interested in articles describing new insights and findings on the effectiveness or mechanisms of inflammatory responses to injury or disease. The work could be based on animal studies, human studies or clinical trials and may include anti-inflammatory prevention and the treatment of inflammatory diseases. Potential topics of interest include, but are not limited to, the following:

- Clinical and animal research on inflammation;
- Effect and mechanism of inflammatory response to injury and disease;
- Immune responses and inflammatory processes;
- Current research and development with inflammatory aspects;
- New aspects of therapeutic strategies of anti-inflammatory prevention and treatment.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
