Plant Proteomics

Message from the Guest Editors

This Special issue of *Plant Proteomics* welcomes submissions of original research, review or perspective articles addressing current technical advances in plant proteomic methodologies aimed at dissecting plant physiological processes, protein dynamics during development, during abiotic and biotic stresses and post-transcriptional regulation. Contributions highlighting applications of proteomics in plant research and outlining challenges for future applications are also welcome.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
