

## Special Issue

# Proteotranscriptomics-Guided Research on Insects and Arachnids Toxins

### Message from the Guest Editors

The exploration of venoms and their selected components—resulting from decades of evolution—have revealed dozens of therapeutically active and promising drug candidates. This exploration has implied various technical approaches, among which proteomics, transcriptomics, and bioinformatics are today in pole position. In this Special Issue, we first want to highlight and demonstrate—once again and again if necessary—how valuable molecules issued from insects and arthropods venoms can be for new drug candidate discovery. Since insects and arthropods account for most species of eukaryotic life on Earth, it seems obvious to expect that the richness of their venom arsenal is far from being completely explored. Second, this Special Issue aims to promote innovative results from research conducted on “noncommon” species focusing on the venom role in species adaptation. We therefore expect authors to share complete and exciting evidence of valuable action of discovered or optimized molecules.

### Guest Editors

Dr. Dominique Kadio Koua

Institut National Polytechnique Félix Houphouët Boigny de Yamoussoukro, Yamoussoukro, Côte d'Ivoire

Dr. Michail Kotsyfakis

Institute of Molecular Biology and Biotechnology, Foundation for Research and Technology-Hellas, 70013 Heraklion, Greece

### Deadline for manuscript submissions

closed (24 March 2023)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
