

## Special Issue

# Innovations in Thoracic Surgery and Medicine: Advancements and Challenges

### Message from the Guest Editor

The evolution of medicine in recent years has been strongly linked to technological evolution, which has allowed the development of medical devices and surgical instruments capable of improving the patients' quality of life in the daily management of chronic diseases, such as diabetes, incontinence or cardiovascular pathologies, and of making surgery less invasive with video-assisted surgery and robotics, which also guarantees more complex interventions with shorter recovery times. This Special Issue aims to understand what could happen in future years, attempting to foresee the trends for innovative technologies and future surgical treatments. We also seek to understand how technology could improve MDT, preoperative studies, anesthesia, postoperative rehabilitation, palliation and follow-up. Furthermore, we ask the question of Artificial Intelligences' role. We are soliciting clinical trial reports or projects, study designs, case series, technical "how-to-do-it" articles, case perspectives, narrative and systematic reviews and expert commentaries.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
