Advances in Dialysis Pathology: Insights into Peritoneal and Hemodialysis Complications

Message from the Guest Editor

This Special Issue focuses on the pathological features and complications arising in patients undergoing hemodialysis (HD) and peritoneal dialysis (PD). It aims to provide a comprehensive understanding of the structural and functional changes associated with long-term dialysis, with particular attention on cardiovascular complications, vascular pathology including arteriovenous fistula (AVF) alterations, and morphological changes in the peritoneal membrane in chronic PD patients. We welcome contributions that explore the mechanisms and histopathological findings of dialysis-associated infections, dialysis-related organ damage, and the role of tissue pathology in informing clinical decision-making. By highlighting the intersection between clinical nephrology and pathology, this issue seeks to deliver practical insights for researchers and clinicians involved in the management of dialysis-related complications

Guest Editor

Dr. Chien-Hung Lin

Division of Pediatric Immunology and Nephrology, Department of Pediatrics, Taipei Veterans General Hospital, Taipei 11221, Taiwan

Deadline for manuscript submissions

30 August 2026

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
