Musculoskeletal Disorders: Integrative Insights into Pathophysiology, Therapeutic Strategies, and Rehabilitation

Message from the Guest Editor

Musculoskeletal disorders (MSDs) remain among the leading causes of pain, disability, and loss of productivity worldwide, profoundly affecting individuals across their lifespan. This Special Issue aims to provide a comprehensive and interdisciplinary exploration of the current understanding and future directions in the pathophysiology, clinical management, and rehabilitation of musculoskeletal conditions.

Advancements in molecular biology, neuroimmunology, and tissue biomechanics have shed new light on the complex mechanisms underlying MSDs, ranging from inflammation-driven degeneration to mechanotransductive imbalances within connective and neuromuscular tissues. A central objective of this issue is to bridge the gap between basic science and clinical application, emphasizing how novel diagnostics, including high-resolution imaging and biomarker analysis, can inform more targeted therapeutic strategies.

Guest Editor

Dr. Carmelo Pirri

Department of Neurosciences, Institute of Human Anatomy, University of Padova, Padova, Italy

Deadline for manuscript submissions

30 May 2026

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
