

Special Issue

State-of-the-Art in Biomedicine in Russia Federation

Message from the Guest Editors

This Special Issue offers a broad array of topics in order to provide as wide as possible an overview of current studies in the field of biomedicine. Thus, a wide range of topics are welcome, including the biomonitoring of populations occupationally or environmentally exposed to ionizing radiation, as well as other environmental factors; cancer etiology; combined data from clinics and basic sciences in biomedicine; systems biology; the application of artificial intelligence in the investigation of physiological and pathological pathways, and in biomedicine at large; intrauterine development; transplacental exposures; and the microbiome. We are honored to invite colleagues from the Russian Federation to contribute to this strong Special Issue of Life, which will be of great interest for scientists of many different disciplines.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
