

Special Issue

Sleep and Sleep Disorders in Sports and Advanced Physical Exercise

Message from the Guest Editors

Many athletes have sleep problems or suffer from sleep disorders, especially as a result of the pressure of competition or qualification for events. Of course, not only the additional burden of competition, but also the regular distribution of sleep disorders such as sleep apnea, restless legs, insomnia and chronic fatigue in athletes of all ages can constrict their performance. Furthermore, sport-specific intrinsic reasons such as travel to competitions around the globe in different time zones, unaccustomed sleep environments, competitions and training at high altitude, etc. can lead to non-refreshing sleep for athletes. On the contrary, sport can also function as an instrument in the treatment of the sleep disorders of non-professional athletes, and certain sleep regimens for athletes and behavioral consequences can improve sleep and performance in professional athletes. This Special Issue of the journal *Life* presents varied discussions on these aspects of sleep and sleep disorders in sport, and offers an overview of the actual status of research relating to sleep, sleep disorders and sport to interested coaches, physicians and scientists.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
