

Special Issue

Molecular Mechanism and Therapeutic Effect of Drugs in Cancer

Message from the Guest Editors

Despite significant progress in diagnosis and treatment, cancer remains as the biggest challenge of modern medicine. Rapid advancement in molecular technologies and new sophisticated bioinformatic analytic methods have opened novel therapeutic perspectives. It has given new hope for overcoming the major issues associated with drug treatment, such as cancer heterogeneity or multidrug resistance. We cordially invite you to present your outstanding cancer drug-related discoveries in this Special Issue to the wider scientific and academic community. In this Special Issue, entitled “Molecular Mechanism and Therapeutic Effect of Drugs in Cancer”, we would like to present a collection of articles, such as reviews and systematic reviews, original papers, clinical trials, molecular and bioinformatics studies. We are looking forward to your submission.

Guest Editors

Dr. Elżbieta Janina Płuciennik
Dr. Katarzyna Kośla
Dr. Magdalena Krystkiewicz-Orzechowska

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
