Thoracic Malignancies: From Prevention and Diagnosis to Late Stages

Message from the Guest Editors

Lung cancer management highly improved across recent decades. Metastatic stages benefit many advances, such as personalized therapies based on immunotherapies or tyrosine kinases inhibitors (TKIs). The management of locally advanced stages III also effectively improved following immunotherapy consolidation post-radio-chemotherapy. Pre-operative treatment is currently evolving with promising immunotherapy (neo-)adjuvant clinical trials. Diagnosis and screening benefits of numerous data support implementation into clinical practice. However, many patients do not benefit from these advances, due to related toxicities, early resistance, and secondary progression, without relevant markers used to predict these discrepancies. This Special Issue of Life calls for original research articles, brief reports, and review articles focusing on new biomarkers, biologically driven strategies, and therapeutic markers in the field of lung cancer. More details could be found at https://www.mdpi.com/journal/life/special_issues/Thoracic_Malignancies

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
