Special Issue

Neurological Diseases: Prevention, Diagnostics, Treatment and Rehabilitation

Message from the Guest Editors

We are excited to announce a Special Issue on "Neurological Diseases: Prevention, Diagnostics, Treatment and Rehabilitation" in the journal *Life*. This Special Issue aims to gather cutting-edge research on innovative prevention strategies, advanced treatment methodologies, and comprehensive rehabilitation approaches for neurological diseases. The focus will be on interdisciplinary research, including artificial intelligence applications, cellular and molecular therapies, and novel therapeutic interventions that can significantly impact patient outcomes. We invite researchers to contribute original research articles, reviews, and case studies that address various aspects of neurological disease management.
