

## Special Issue

# Neurological Diseases: Prevention, Diagnostics, Treatment and Rehabilitation

### Message from the Guest Editors

We are excited to announce a Special Issue on “Neurological Diseases: Prevention, Diagnostics, Treatment and Rehabilitation” in the journal *Life*. This Special Issue aims to gather cutting-edge research on innovative prevention strategies, advanced treatment methodologies, and comprehensive rehabilitation approaches for neurological diseases. The focus will be on interdisciplinary research, including artificial intelligence applications, cellular and molecular therapies, and novel therapeutic interventions that can significantly impact patient outcomes. We invite researchers to contribute original research articles, reviews, and case studies that address various aspects of neurological disease management.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
