

Special Issue

Current Research on Dermatology: Pathology, Clinical Manifestation, Investigation and Therapy: 2nd Edition

Message from the Guest Editor

This second volume of this Special Issue follows on from the success of the first, we invite you to publish your research in this edition of “Current Research on Dermatology: Pathology, Clinical Manifestation, Investigation and Therapy”

(https://www.mdpi.com/journal/life/special_issues/Dermatology_research).

Considering recent advances in the field, dermatovenerology has proven to be a specialty of clinical, investigative, and therapeutic interest. Cutaneous skin diseases vary in appearance, evolution, and prognosis as well as in their response to various treatments. Novel treatments are now available for various skin conditions, including surgical, cosmetic, and physiotherapeutic procedures. Drugs of both plant and chemical origin can produce systemic or adverse skin reactions. If classical therapy is ineffective or is not tolerated, off-the-label drugs or complementary and alternative medicine methods can be used as part of an integrative medicine treatment. This Special Issue of Life will collect and present data on the latest developments in the field.

Guest Editor

Prof. Dr. Alin Laurentiu Tatu

1. Clinical Department, Dermatology, Faculty of Medicine and Pharmacy, Dunarea de Jos University, Galati, Romania
2. Dermatology Department, Saint Parascheva Clinical Hospital of Infectious Diseases, Galati, Romania
3. Multidisciplinary Integrative Center for Dermatologic Interface Research MIC-DIR, Galati, Romania

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
