Health Management of Farm Animals: Physiological and Pathological Aspects

Message from the Guest Editor

Health management in farm animals is the practice of ensuring optimal health and welfare in animals through diagnostics, preventive strategies, monitoring programs, and the management of diseases, which is crucial in improving both animal health and productivity. This Special Issue will focus on health management in farm animals, including physical and pathological aspects that influence animal health, disease prevention and treatment strategies, livestock production, and overall herd management. Our aim for this Special Issue is to showcase a collection of reviews or original research articles on health management in farm animals, covering all aspects of the link between the physical and pathological aspects in farm animals, such as ruminants, pigs, poultry, and rabbits. Experts in the field of the physiology and pathology of animals, veterinary medicine, veterinary microbiology/virology/parasitology, farm animal medicine, animal nutrition, and animal welfare are invited to submit manuscripts for peer review.

Guest Editor

Prof. Dr. Vasileios Papatsiros

Clinic of Medicine, Faculty of Veterinary Medicine, University of Thessaly, 43100 Karditsa, Greece

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
