

## Special Issue

# Feature Papers in Animal Science: 4th Edition

### Message from the Guest Editor

This Special Issue aims to collate high-quality papers related to all aspects of animal science, including anatomy, behavior, embryo manipulation, feeding, nutrition, physiology, histology, diseases, animal management, health and welfare, genetics and breeding, gut development, functional food, microbial ecology, gut microbiome, next-generation sequencing, and immunology. We encourage researchers from various fields within *Life*'s scope to contribute papers highlighting the latest developments in their research field or to invite relevant experts and colleagues to do so. Original research, reviews, communications, case reports, and other types of articles are invited to kindly be submitted in order to improve our knowledge and practice regarding animal science.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
