

Special Issue

Crosstalk between Cardiovascular Disease and Its Comorbidities

Message from the Guest Editors

As our knowledge of the physiological and pathophysiological processes that take place in the human body deepens, we are also gaining a deeper awareness of their complexity. We now know that the activation and/or inactivation of multiple mechanisms and the chains of biological events that take place in an organ can have impacts of variable intensity on other organs and systems. This Special Issue invites you to share research on the diagnosis and treatment of cardiovascular diseases in patients with comorbidities, where the accumulation of disturbances requires diagnostic and therapeutic management on multiple levels. We are interested in both original articles and reviews, with the aim of improving the management of patients with cardiovascular disease and its comorbidities, which are both difficult to treat and frequently encountered in current practice. Prof. Dr. Irina Iuliana Costache

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
