

Special Issue

Structural Biology of Pathogens and Drug Development

Message from the Guest Editor

This Special Issue is dedicated to compiling articles that highlight the most recent advancements in the creation of antiviral and antibacterial medications. Addressing the challenge of emerging infectious diseases and drug-resistant pathogens has been a persistent pursuit in scientific research. The swift progress in structural biology has equipped scientists with the ability to quickly and precisely pinpoint promising antiviral and antibacterial agents. Additionally, structure-based drug discovery and design methodologies have facilitated a reduction in associated costs and an enhancement in the efficiency of the drug development pipeline. In essence, the incorporation of structural biology into drug discovery and design has transformed research approaches within medicinal chemistry and redefined drug screening and optimization techniques. This Special Issue will focus on the latest research in the field of infectious diseases, especially the application of structural biology in drug discovery and design.

Guest Editor

Prof. Dr. Litao Sun

School of Public Health (Shenzhen), Shenzhen Campus of Sun Yat-Sen University, Sun Yat-Sen University, Shenzhen 518107, China

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
