Women's Special Issue Series: Life

Message from the Guest Editors

We invite you to celebrate with us the achievements of women in science by contributing an original life science research article to this Special Issue of Life.

It is our goal to highlight and celebrate the achievements of women in science by cultivating an environment that is friendly to young women aspiring to have a career in the life sciences. While the purpose of our Special Issue is to promote and celebrate the achievements of women in science, we do so without imposing gender-specific restrictions and welcome submissions from all authors, irrespective of gender identity.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
