Heart Failure and Coexisting Morbidities

Message from the Guest Editor

Heart failure (HF) is a clinical syndrome associated with increased morbidity, mortality, and healthcare costs. Several diseases and conditions are present in HF patients (cardiovascular and non-cardiovascular). HF in the young is attributed to factors predominantly or exclusively affecting the heart (i.e., adult congenital heart disease, cardiomyopathies, myocarditis, or cardiotoxicity), HF in the elderly is the result of risk factors (i.e., hypertension, obesity, type 2 diabetes mellitus, coronary artery disease, valvular heart disease) accelerating cardiovascular aging and influencing heart and the vasculature. The Special Issue is now open for submissions (including original research articles, review papers, and opinion papers) related to cardiology as well as researchers specializing in different areas (i.e. diabetology, hematology, intensive care medicine, rheumatology, endocrinology, nephrology etc.). We kindly ask that prospective authors send a short abstract or tentative title to the Editorial Office prior to submitting a full paper so that its suitability for the scope of this Special Issue can be evaluated.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
