Clinical Manifestations and Treatment of Autoimmune Diseases: 2nd Edition

Message from the Guest Editors

Autoimmunity is one of the most common ways in which the immune system can fail. Autoimmune diseases are numerous and involve any medical specialty, ranging from mild to serious, chronic and tumultuous conditions. The field of autoimmune diseases is particularly active; in recent years, many interesting discoveries have been made regarding disease classification criteria, biological markers of inflammation activity, and synthetic and biological therapies. With this Special Issue, we aim to fill these gaps, at least in part, by inviting researchers to contribute to improving the understanding and treatment of autoimmune diseases step by step.

Articles may include any topic related to autoimmunity, from the biology and physiology of the immune system to clinical diseases, autoimmunity as an epiphenomenon of other conditions, response to vaccines and therapy. I hope that this Special Issue is greeted with productivity and enthusiasm as everyone's help is needed to make further progress in this crucial topic of human health.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
