Special Issue

Recent Advances of Deep Learning and Machine Learning in Bioinformatics

Message from the Guest Editors

A Special Issue on the topic "Recent advances of Deep learning and Machine learning in Bioinformatics" is being prepared for the journal Life. In recent years, machine learning is one of the most exciting tools that have entered the bioinformatics toolbox. The statistical method has already proved to be capable of considerably speeding up both fundamental and applied research in the field. At present, we are witnessing an explosion of works that develop and apply machine learning and deep learning to bioinformatics and computational biology. We begin a Special Issue which accepts the manuscript of the most recent research on this topic.

The Special Issue will cover but not be limited to the following research topics:

- Protein structure and function prediction
- Next-generation sequencing
- Integration of omics data
- Prediction model
- SARS-coV-2 and machine learning
- Resources for advancement of the field
- Review articles summarizing the progress of machine learning/Deep learning in Bioinformatics.

Guest Editors

Dr. Sandeep Kumar Dhanda Saint Jude Children's Research Hospital, Memphis, TN 38105, USA

Dr. Ravindra Kumar

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
