

Special Issue

Biochemical Modulators in Chronic Diseases: The Antioxidant /Anti-inflammatory Interdependence

Message from the Guest Editor

This Special Issue provides an overview of emerging topics on the future perspectives of biochemical modulators acting as selective inhibitors of part of inflammatory and oxidative pathways as well as the appropriate quantification of both redox and inflammatory status before, during, and after antioxidant or anti-inflammatory therapy. For this Special Issue, original research articles, reviews, and short reports on various aspects of antioxidants/anti-inflammatory interdependence in chronic diseases are welcome, in addition to the prediction of future trends in related fields.

Guest Editor

Dr. Emma Borrelli

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
