

## Special Issue

# The Therapeutic Applications of Extracellular Vesicles

### Message from the Guest Editor

Extracellular vesicles (EVs) collectively refer to microvesicles, exosomes, apoptotic bodies, and other vesicular entities secreted by living cells. Now, it has been well established that EVs have important roles in exchanging information from cell to cell and regulating cellular physiology in both healthy and disease conditions. In addition, EVs themselves are appreciated as a potential therapeutic and drug delivery vehicle with compatible tolerance and excellent delivery efficacy. EVs are also a potential therapeutic target for treating intractable diseases such as cancers. The Special Issue on “The therapeutic applications of extracellular vesicles” is intended to provide a unique international forum covering a broad description of results providing the current advancement on the development of EVs as therapeutics. Scientists working on EVs produced from many diverse sources and methods for therapeutic applications are invited to contribute their data and insights on methodologies that enhanced the progress of therapeutic EV development.

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona  
Institute of Science and Technology, 08028 Barcelona, Spain

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
