

## Special Issue

# Blue Revolution and Aquatic Life

### Message from the Guest Editors

In the perspective of the Blue Revolution, the current Special Issue concerns the integration of generations of aquatic plants and aquatic animals and the aquaculture products resulting from these generations. For this objective, we welcome the submission of high-quality research articles, review articles, and short communications that provide recent insights into the several aspects of the Blue Revolution, such as, but not limited to, integration of generations of aquatic organisms, sustainable development of aquatic organisms, immunity of aquatic animals, IMTA, PBR, RAS, aquaponic systems, treatment of aquaculture effluent, seaweed/microalgae co-culture, fish/shrimp/mollusks/seaweed co-cultures, and algal cell extracts and products.
