

# Topical Collection

## Feature Papers in Animal Science

### Message from the Collection Editor

Dear Colleague, This Special Issue aims to collect high-quality papers related to all aspects of endothermic and aquatic animals science, including anatomy, behavior, embryo manipulation, feeding, nutrition, physiology, histology, diseases, animal management, health and welfare, genetics and breeding, gut development, functional food, microbial ecology, gut microbiome, next-generation sequencing, and immunology. We encourage researchers from various fields within the journal's scope to contribute papers highlighting the latest developments in their research field or to invite relevant experts and colleagues to do so. Original research, editorials, reviews, communications, commentaries, case reports and other types of articles are kindly invited to improve knowledge and practice for animal science.

### Collection Editor

Prof. Dr. Einar Ringø

Norwegian College of Fishery Science, Faculty of Biosciences, Fisheries and Economics, UiT The Arctic University of Norway, N-9037 Tromsø, Norway

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
