# Feature Papers in Animal Science

## Message from the Collection Editor

Dear Colleague, This Special Issue aims to collect highquality papers related to all aspects of endotermic and aquatic animals science, including anatomy, behavior, embryo manipulation, feeding, nutrition, physiology, histology, diseases, animal management, health and welfare, genetics and breeding, gut development, functional food, microbial ecology, gut microbiome, next-generation sequencing, and immunology. We encourage researchers from various fields within the journal's scope to contribute papers highlighting the latest developments in their research field or to invite relevant experts and colleagues to do so. Original research, editorials, reviews, communications, commentaries, case reports and other types of articles are kindly invited to improve knowledge and practice for animal science.
