Complex Carbohydrates and Glycoconjugates: Structure, Functions and Applications

Message from the Guest Editor

The journals *IJMS* and *Life* will jointly be publishing a Special Issue covering the topic "Complex Carbohydrates and Glycoconjugates: Structure, Functions and Applications". This Special Issue welcomes the submission of original research papers or comprehensive reviews that demonstrate or summarize significant advances in the field of carbohydrate chemistry and biochemistry. The papers may be devoted to targeted synthesis of complex carbohydrates and glycoconjugates, isolation and structure determination of complex carbohydrates and glycoconjugates, and elucidation of their biological activities. Papers concerning development of applications of instrumental methods in carbohydrate chemistry and biology are also welcome in this Special Issue.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief
