

## Special Issue

# Gut Microbiota: A New Path to Treating Syndrome

### Message from the Guest Editor

“Gut Microbiota: A New Path to Treating Syndromes” is a Special Issue publishing original articles or reviews on all disciplines related to metabolic syndrome and any kinds of syndrome. This includes basic and behavioral sciences, clinical treatment and outcomes, epidemiology, prevention, and public health. The journal should therefore appeal to all professionals with an interest in syndromes and their comorbidities. Article types may include original experiment and reviews, but all must offer new insights, critical or novel perspectives that will enhance the state of knowledge in the field. Prevalence studies that compare (research or review) trends across countries or regions or across ethnic groups or relevant subpopulations and provide novel insights and/or conclusions will be considered. The journal also invites reviews presenting original or challenging theories, hypotheses, or alternative interpretations of findings. The journal will contribute to education and inter-professional developments by planning pro and con reviews on current controversies.

### Guest Editor

Dr. Lili Li

Yantai Institute of Coastal Zone Research, Chinese Academy of Sciences, Yantai 264003, China

### Deadline for manuscript submissions

closed (1 July 2022)

## About the Journal

### Message from the Editor-in-Chief

*Life* (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
