

Special Issue

Microbial Life in the Solar System

Message from the Guest Editor

I would like to invite you to submit a paper to a Special Issue of the journal *Life*, on the subject of “Microbial Life in the Solar System.” The goal of this Special Issue is to bring together discussions of the possible distribution and prevalence of microbial life elsewhere in Earth’s Solar System, biosignatures of extant and/or extinct life, techniques for detection of such biosignatures, and mission considerations. Energetic considerations for the existence of life on specific extraterrestrial bodies and the possibility of non-water-based biochemistries are of particular interest. Papers discussing analog sites on Earth are also welcomed.

Guest Editor

Dr. Jay Nadeau

Physics Department, Portland State University, Portland, OR 97207, USA

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona
Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
