

Topical Collection

State of the Art in Plant Science

Message from the Collection Editors

We are pleased to announce the launch of a new Topical Collection entitled "State of the Art in Plant Science". This Topical Collection publishes original research and timely review articles on all aspects of plant science. The Topical Collection aims to increase our knowledge of plant molecular biology, plant physiology and eco-physiology, plant pathology, plant phylogeny, and interactions with both the abiotic and biotic environments.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.
