Special Issue

An Update on SARS⊠CoV⊠2: Mutations, Variants, and Their Potential Impact

Message from the Guest Editors

This Special Issue is aimed at providing a comprehensive overview of the key areas of genetic diversification, adaptation, and evolution underlying SARS-CoV-2 infection. Original research, review, clinical reports that afford up-to-date findings in the topics of SARS-CoV-2 viral genetic variation, intergenic coevolution, geographical adaptation, immune and diagnostic evasion, natural drug resistance, mutational impact on SARS-CoV-2 structural protein stability, and genetic compartmentalization in body districts are of great interest and will be welcome.

About the Journal

Message from the Editor-in-Chief

Life (ISSN 2075-1729) is an international, peer-reviewed open access journal that publishes scientific studies related to fundamental themes in life sciences. Some papers are published individually, while others are submitted for inclusion in special issues with guest editors. You are invited to contribute a research article, essay, or a review to be considered for publication.

Editor-in-Chief

Prof. Dr. Lluís Ribas de Pouplana

Institute for Research in Biomedicine (IRB Barcelona), The Barcelona Institute of Science and Technology, 08028 Barcelona, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Biology) / CiteScore - Q1 (Paleontology)
