

Special Issue

Women's Special Issue Series: Livers—Honouring Women in Hepatology

Message from the Guest Editor

In this issue, we would like to welcome articles in every field of liver biology specifically focusing on the liver as an immune milieu. This Special Issue aims to give visibility to research works where the lead author is a woman (i.e., a person who identifies as a woman) or that are completely authored by women. Although we encourage women scientists to submit original or review manuscripts to this Special Issue, we strongly promote a policy of gender equality and welcome submissions from all authors, irrespective of gender.

Guest Editor

Prof. Dr. Veronika Lukacs-Kornek

Institute of Experimental Immunology, University Bonn, Venusberg
Campus 1, 53127 Bonn, Germany

Deadline for manuscript submissions

closed (31 October 2023)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Hartmut W. Jaeschke

Department of Pharmacology, Toxicology & Therapeutics, University of
Kansas Medical Center, Kansas City, KS 66160, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 27 days after
submission; acceptance to publication is undertaken in 6.7
days (median values for papers published in this journal in
the second half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
