

Special Issue

Hepatocellular Carcinoma and Intrahepatic Cholangiocarcinoma

Message from the Guest Editor

Liver cancer is a topic which is receiving increasing attention. Hepatocellular carcinomas are still the primary liver cancers with the highest prevalence and death toll worldwide. Intrahepatic cholangiocarcinoma is also on the rise, and an ever-increasing number of rare liver cancers are being reported. Epidemiology, pathogenesis and response to surgical, locoregional and systemic treatments are all elements of particular interest which need further elucidation by future studies. This Special Issue of *Livers* will cover all aspects, and welcomes both original research and comprehensive review papers to guide a wide readership toward the most recent and ground-breaking research in this complex field.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Hartmut W. Jaeschke
Department of Pharmacology, Toxicology & Therapeutics, University of
Kansas Medical Center, Kansas City, KS 66160, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus, EBSCO,
and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 27.8 days after
submission; acceptance to publication is undertaken in 6.7
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.
