

## Special Issue

# Logic in Traditional Chinese Academic Study

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- The traditional Chinese logic behind the development of traditional Chinese philosophy from the pre-Qin period to the end of the Qing dynasty;
- Deep interpretations of core terms in Chinese logical thought, such as *bian*, *ming*, *ci*, and *shuo*;
- The spread and influence of foreign logic (Western logic, Indian Hetuvidyā *yinming*) in China;
- The relationship between Chinese logic and foreign logic.

We request that, prior to submitting a manuscript, interested authors initially submit a proposed title and an abstract of 200–300 words summarising their intended contribution. Please send it to the , or to the Assistant Editor of *Logics*. Abstracts will be reviewed by the for the purposes of ensuring proper fit within the scope of this Special Issue. Full manuscripts will undergo double-blind peer review. We look forward to receiving your contributions.
