

Special Issue

The Legacy of A.V. Kuznetsov in Logic, Algebra and Foundations of Mathematics

Message from the Guest Editors

This Special Issue is dedicated to the 100th anniversary of A.V. Kuznetsov, whose achievements determined the paths of development of non-classical logics from the 1950s to the 1980s and influenced many researchers. We are pleased to invite you to contribute to this Issue, which seeks to commemorate A.V. Kuznetsov's achievements by presenting the state of affairs in the area of non-classical logic—an area that was shaped by his ideas and the results of his studies. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Intermediate logics;
- Modal logics;
- General theory of propositional calculi;
- Proof logics;
- Functional expressibility;
- Heyting algebras and their classes;
- Modal algebras and their classes;
- Recursive function and algorithms.

Guest Editors

Prof. Dr. Alexei Muravitsky

Mathematics, Northwestern State University, Natchitoches, LA 71497, USA

Dr. Alex Citkin

Metropolitan Telecommunications, New York, NY 10041, USA

Deadline for manuscript submissions

closed (31 March 2025)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Valentin Goranko

Logic and Theoretical Philosophy, Stockholm University, Stockholm,
Sweden

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid
by authors or their institutions.

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names published annually in the journal.

Companion journals for Logics include

: Axioms and Mathematics.
