Harvesting the Future: Advanced Strategies and Innovations in Agroforestry Residual Biomass Logistics

Message from the Guest Editor

The 'Harvesting the Future: Advanced Strategies and Innovations in Agroforestry Residual Biomass Logistics' special issue delves into the integral and developing field of managing residual biomass from agroforestry sources. As the world intensifies its efforts towards sustainable energy, residual biomass has proven to be a significant and largely untapped resource. This Special Issue aims to explore the intricacies of harvesting, processing, and transporting these resources, integrating perspectives from forestry science, agriculture, engineering, environmental science, and supply chain management. Contributions include innovative research on optimizing harvesting methods, advancements in processing technologies, and novel approaches to logistics management to improve efficiency and reduce environmental impacts. The Special Issue also shines a spotlight on policy implications, regional case studies, and future opportunities in the residual biomass field. Its goal is to stimulate scholarly dialogue, inspire sustainable practices, and pave the way for the next era of bioenergy derived from agroforestry residuals.

About the Journal

Message from the Editor-in-Chief

I am delighted to take on the editorial role for the open-access international journal Logistics, which will emphasize current important issues in logistics and supply chain management. My aim is to ensure that this journal employs a rapid review process; has the flexibility to address the most current topics; and is globally connected, communicating online peer-reviewed articles and related content to a worldwide audience. I have invited a group of leading thinkers to serve as Editorial Review Board Members, who will promote cutting-edge insights from authors from all over the world. Contemporary topics that address current challenges will receive special attention, as will thought-provoking scholarly essays and viewpoints. On behalf of our distinguished Editorial Board, I welcome your contributions.

Editor-in-Chief

Prof. Dr. Robert Handfield

Department of Business Management, Poole College of Management,
North Carolina State University, Raleigh, NC 27695, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25.6 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

JCR - Q2 (Operations Research and Management Science)
/ CiteScore - Q1 (Information Systems and Management)
