

Special Issue

Advancing Circular Supply Chains: Integrating Logistics, Supply Chain Management and Circular Economy Practices

Message from the Guest Editors

This Special Issue focuses on the convergence of circular supply chains, logistics, and SCM within the context of the circular economy.

- Strategies for designing products for disassembly and recycling;
- Challenges and solutions in reverse logistics;
- Case studies of successful closed-loop systems;
- Methods for reclaiming materials from end-of-life products;
- Strategies for sourcing sustainable materials;
- The impact of IoT, blockchain, and AI on circular supply chains;
- Exploring new business models such as product-as-a-service;
- The economic implications of circular business models;
- The impact of regulations on circular supply chain practices;
- Engaging consumers in circular supply chain initiatives;
- Tools and frameworks for assessing circular supply chain performance;
- Strategies for managing the transition from linear to circular models.

About the Journal

Message from the Editor-in-Chief

I am delighted to take on the editorial role for the open-access international journal Logistics, which will emphasize current important issues in logistics and supply chain management. My aim is to ensure that this journal employs a rapid review process; has the flexibility to address the most current topics; and is globally connected, communicating online peer-reviewed articles and related content to a worldwide audience. I have invited a group of leading thinkers to serve as Editorial Review Board Members, who will promote cutting-edge insights from authors from all over the world. Contemporary topics that address current challenges will receive special attention, as will thought-provoking scholarly essays and viewpoints. On behalf of our distinguished Editorial Board, I welcome your contributions.

Editor-in-Chief

Prof. Dr. Robert Handfield

Department of Business Management, Poole College of Management,
North Carolina State University, Raleigh, NC 27695, USA

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.
