

Special Issue

Reverse Logistics for Sustainability

Message from the Guest Editor

Supply chain sustainability has attained special importance as triple-bottom line issues take center stage in the operations of multi-national companies. This Special Issue will focus on models, cases and examples of reverse logistics strategies that enable sustainability of supply chains. Authors are cordially invited to submit papers to *Logistics* for this Special Issue. Manuscripts can be submitted on any of the following topics:

- Supply chain sustainability with a focus on reverse logistics
- Reverse logistics strategies for enabling sustainability
- Models of reverse logistics strategies
- Cases and examples of reverse logistics strategies

We especially welcome real-life applications of reverse logistics strategies in companies.

About the Journal

Message from the Editor-in-Chief

I am delighted to take on the editorial role for the open-access international journal Logistics, which will emphasize current important issues in logistics and supply chain management. My aim is to ensure that this journal employs a rapid review process; has the flexibility to address the most current topics; and is globally connected, communicating online peer-reviewed articles and related content to a worldwide audience. I have invited a group of leading thinkers to serve as Editorial Review Board Members, who will promote cutting-edge insights from authors from all over the world. Contemporary topics that address current challenges will receive special attention, as will thought-provoking scholarly essays and viewpoints. On behalf of our distinguished Editorial Board, I welcome your contributions.

Editor-in-Chief

Prof. Dr. Robert Handfield
