

Special Issue

Data Governance Issues for a Digital Economy

Message from the Guest Editor

This Special Issue will focus exclusively on data governance issues faced by supply chain professionals. Authors are cordially invited to submit papers to Logistics for the 31 March 2018 issue. Manuscripts or papers can be submitted on the following topics

- Data Governance and its impact on Supply Chain Analytics
- Ways organizations can harness data to drive spend analysis
- Approaches to improve data quality in operations, procurement and business planning
- Methods to filter and observations on growth of noise while gathering data
- Global scenarios, legislation and adoption of block chain/smart contracts/distributed ledgers

About the Journal

Message from the Editor-in-Chief

I am delighted to take on the editorial role for the open-access international journal Logistics, which will emphasize current important issues in logistics and supply chain management. My aim is to ensure that this journal employs a rapid review process; has the flexibility to address the most current topics; and is globally connected, communicating online peer-reviewed articles and related content to a worldwide audience. I have invited a group of leading thinkers to serve as Editorial Review Board Members, who will promote cutting-edge insights from authors from all over the world. Contemporary topics that address current challenges will receive special attention, as will thought-provoking scholarly essays and viewpoints. On behalf of our distinguished Editorial Board, I welcome your contributions.
