Calabria, 87036 Rende, Italy

### Message from the Guest Editors

Dear Colleagues,

Research activities of the Japanese Council of IFToMM focus on the many aspects of the theory, design, practice, and application of mechanism and machine design. Several international collaborative works have been done and there are also new activities despite the pandemic situation. This Special Issue contains a selection of the best papers presented at the 26th Jc-IFTToMM Symposium 2021 (3rd International Jc-IFTToMM Symposium) and on the recent advances in the research areas covered by IFTToMM. Novel results and solutions in the broad field of machine design, achieved in Japan as well as with international collaborations mainly within the IFTToMM community, are presented.

Prof. Gentiane Venture

Prof. Yusuke Sugahara

Prof. Dr. Giuseppe Carbone

*Guest Editors*

Deadline for manuscript  
submissions:

**closed (15 November 2021)**

## **Editor-in-Chief**

**Prof. Dr. Antonio J. Marques  
Cardoso**

CISE - Electromechatronic  
Systems Research Centre,  
University of Beira Interior,  
Calçada Fonte do Lameiro, P-  
6201-001 Covilhã, Portugal

## **Message from the Editor-in-Chief**

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2 (Control and Optimization)
