

Electrical Engineering and Mechatronics Technology

Guest Editor:

Prof. Dr. Kai Wang

College of Electrical Engineering,
Qingdao University, Qingdao
266071, China

Deadline for manuscript
submissions:

closed (31 December 2021)

Message from the Guest Editor

We invite submissions of papers and abstracts on all topics related to Electrical Engineering and Mechatronics Technology. Suitable topics for this Special Issue include but are not limited to:

- Mechatronics control;
- Sensors and actuators;
- 3D printing technologies;
- Intelligent control;
- Motion control;
- Opto-electronic systems;
- Opto-mechatronics;
- Humanoid robots;
- Unmanned vehicles;
- Human-machine interfaces;
- Advanced motion control;
- Integrated manufacturing system;
- Micro/nano-manufacturing and MEMS/NEMS;
- Fault detection and diagnosis in mechatronics systems;
- Industrial robots and automatic production lines;
- Advanced forming manufacturing and equipment;
- NEMS/MEMS technology and equipment;
- Modeling, analysis and simulation of manufacturing processes;
- High-speed/precision machining and inspection technology.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

Journal Rank: JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2 (Control and Optimization)
