Department of Mechanical Engineering, School of Engineering, Tokyo Institute of Technology, 2-12-1, Ookayama, Meguro-ku, Tokyo 152-8552, Japan

Prof. Dr. Kenji Hashimoto

Department of Mechanical Engineering Informatics, Meiji University, 1-1-1 Higashi-Mita, Tama-ku, Kawasaki-shi, Kanagawa 214-8571, Japan

Dr. Giuseppe Carbone

Department of Mechanical, Energy and Management Engineering, Università della Calabria, 87036 Rende, Italy

Message from the Guest Editors

Dear Colleagues,

Research activities of the Japanese Council of IFToMM mainly focus on the theory, design, practice, and application of mechanism and machine design. Several international collaborative works have been done and are being extended with several partners. This Special Issue contains a selection of the best papers presented at the 25th Jc-IFTToMM Symposium 2019 (2nd International Jc-IFTToMM Symposium) on recent advances in the research areas covered by IFTToMM. Novel results and solutions in the broad field of machine design, achieved in Japan as well as with international collaborations mainly within the IFTToMM community, are presented.

Prof. Dr. Yukio Takeda

Prof. Dr. Kenji Hashimoto

Prof. Dr. Giuseppe Carbone

Message from the Editor-in-Chief

Machines is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within *Scopus*, *SCIE (Web of Science)*, *Inspec*, and other databases.

Journal Rank: JCR - Q2 (Engineering, Mechanical) / CiteScore - Q2 (Control and Optimization)
