

## 10th Anniversary of Machines—Feature Papers in Medical Robotics and Sensing

Guest Editors:

**Prof. Dr. Hongliang Ren**

1. Electronic Engineering Department, The Chinese University of Hong Kong (CUHK), Hong Kong
2. Department of Biomedical Engineering, National University of Singapore, Singapore 117576, Singapore

**Dr. Changsheng Li**

School of Mechatronical Engineering, Beijing Institute of Technology, Beijing 100081, China

Deadline for manuscript submissions:

**closed (31 December 2022)**

### Message from the Guest Editors

New robotic and sensing technologies have led to significant advances in medicine in recent decades. We invite paper submissions on the emerging research and technologies of medical robotics, medical sensing, smart co-robotics, and medical scene understanding by artificial intelligence. Particularly, the main areas of interest include biorobotics, intelligent systems, medical mechatronics, continuum and soft flexible robots and sensors, multisensory perception, learning and control in image-guided procedures, deployable motion generation, compliance modulation/sensing, cooperative and context-aware sensors/actuators in human environments, robotic surgery, robotic assistance in various human-interactive scenarios, flexible robotics, and machine artificial intelligence.

an Open Access Journal by MDPI

## Editor-in-Chief

**Prof. Dr. Antonio J. Marques  
Cardoso**

Systems Research Centre,  
University of Beira Interior,  
Calçada Fonte do Lameiro, P-  
6201-001 Covilhã, Portugal

## Message from the Editor-in-Chief

*Machines* is an international, peer reviewed journal on machinery and engineering. It publishes research articles, reviews and communications.

Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. Full experimental and/or methodical details must be provided.

There are, in addition, unique features of this journal: Manuscripts regarding research proposals and research ideas will be particularly welcomed; Electronic files or software regarding the full details of the calculation and experimental procedure - if unable to be published in a normal way can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Mechanical) / CiteScore - Q1 (Control and Optimization)
